Dear Management Team at Sparky's Electric,

Recently relocated to the Lansing area and seeking full-time work as a journeyman electrician with a local contractor. I have 6 years of experience at Parkway Electric, after graduating from an extensive 18 week electrical job training program. Before this, I managed a Jimmy Johns restaurant while a student at MSU. These experiences have created a foundation of leadership and customer service that I apply daily. I look forward to employment with a company where I can leverage these skills, while continuing to grow as an electrician and member of the community.

While at Parkway, I am continually challenged with unique projects which provide the opportunity for daily learning and honing of my skills. While working primarily in commercial settings, I have completed a wide variety of tasks. These range from running conduit in new construction, to troubleshooting lighting systems in existing buildings. I have worked on numerous systems including communications wiring, fire alarm, and lighting controls. These assignments have also afforded me the opportunity to work with other trades, using a wide range of tools and equipment.

My experience as a commercial electrician has tasked me with managing multiple subcontractors concurrently, while organizing state inspections to meet deadlines and remain ahead of schedule. Coordinating all of this, while also completing the electrical work I'm responsible for, requires excellent planning and communication. My ability to multitask stems from life experiences in college and working for Jimmy Johns. Both require time management and accountability to be successful.

As most electricians would attest, I too find myself often working alone. I have also spent time managing and training apprentices. I find that my instruction and guidance is well received, and that I work well with others. Although I am comfortable and confident working alone, I feel pride in accomplishing large tasks as part of a team.

Thank you for your time and consideration while reviewing my resume. Please do not hesitate to contact me with any questions you have. I look forward to hearing from you and am excited for a new opportunity to grow in this great industry!

Best Regards,

Grant Koenigsknecht
